# TECHNICAL DATASHEET WRAS APPROVED BIBTAP WITH CHECK VALVE

Item No.: HC-20302T

### 1 CERTIFICATION INFORMATION

Declaration of conformity: WRAS approved bibtap, Confirmation of the approval can be obtained from the WRAS Approvals Directory (www.wras.co.uk/directory) Approval Number:

2104320 WRAS

### 2 PRODUCT BASICS

Product Name: WRAS APPROVED BIBTAP WITH CHECK VALVE

Purpose: It is used as a shut-off valve in pipeline systems (water supply, household drinking), transporting any media that are not aggressive to the materials.

Manufacture (supplier): HOME CREATOR TECHNOLOGY CO., LTD.

### MAIN TECHNICAL DATA AND CHARACTERISTICS

### MAIN ILCIMICAL DATA AND CHARACTERISTIC

3.1 SPECIFICATIONS Table 1

| Bibtap for connecting plumbing fixtures |                           |               |       |  |
|---|---------------------------|---------------|-------|--|
| Connection                              | thread, Inch              | 1/2 "         | 3/4"  |  |
| Nominal pres                            | sure PN, MPa              |               | 1.0   |  |
| Working temper                          | rature range, °C          | 4             | to 90 |  |
| Ambient ten                             | nperature, °C             | 4             | to 60 |  |
| Maximum torque on the handle            |                           | 10            |       |  |
| Seal tightness                          |                           | Class "A"     |       |  |
| Connection thread (ISO 228)             |                           | Parallel      |       |  |
|   | Average full service life | 30 years old  |       |  |
| Uptime                                  | average full resource     | 55,000 cycles |       |  |
| орине                                   | MTBF                      | 25,000 cycles |       |  |
|   |                           |               |       |  |
|   |                           |               |       |  |
|   |                           |               |       |  |

# INSTALLATION AND OPERATION

- 4.1 Installation of a bibtap should be carried out by a specialist or a specialized organization in accordance with the Installation Requirement Notes (IRNs) "WRAS water regulation approval schedule."
- 4.2 The bibtap can be installed in any mounting position, both horizontal and vertical. Any direction of the working medium is allowed.
- 4.3 Sealing of threaded connections should be carried out using standard sealing materials.
- 4.4 The bibtap should not experience loads from the pipeline (when bending, compressing, stretching, torsion, braiding, vibration, uneven tightening of the fasteners, etc.)
- 4.5 Upon completion of the installation work, it is necessary to carry out individual tests of the equipment with the preparation of the act.
- 4.6 The bibtap shall be operated in accordance with the characteristics specified in paragraph 3, of this technical passport.
- 4.7 When installing a valve, in order to prevent the formation of cracks and chips on the coupling ends of the valve, as well as deformation of the valve body or depressurization of the connection point of the semi-hulls, it is recommended to use standard carob Keys.
- 4.8 During installation, when tightening the valve, the key must be captured by the hexagon of the housing closest to the connection thread. It is not allowed to exceed the tightening moments indicated in the table below:

| Size, inch                              | 1/2" | 3/4" |
|---|------|------|
| Connecting thread tightening torque, Nm | 30   |      |
| Tightening torque of the union nut, Nm  | 1    | 5    |

- 4.9 To exclude possible contaminants associated with the installation of the valve (excess sealing material, paste, etc.) into the internal cavities of the tap, the valve should be mounted in a fully open position.
- 4.10 The bibtap has only two operating positions: fully open or fully closed. It is not allowed to use HOME CREATOR bibtap as control valves, this can lead to a reduction in service life and the failure of the crane
- 4.11 In the case of using the valve in pipeline systems with a high content of mechanical impurities, it is recommended to additionally mount a U-shaped filter for cleaning HOME CREATOR (Art. HC-20302).

### 5 DESCRIPTION AND WORK

5.1 The bibtap blocks the flow of the transported medium with a spherical gate shape. The shutter rotates 90 degrees by transmitting torque from the crane handle through the rod. The bolt has seals on the sides of the outlet pipes and rod.

# 6 MAINTENANCE

- 6.1 Articles must be operated within the values specified in para. 3, para. 4 of this technical passport.
- 6.2 To extend the service life of sealing elements, it is recommended to open / close the HOME CREATOR bibtap at least 1 time in 6 months.

### STORAGE AND TRANSPORTATION CONDITIONS

7.1 Products are transported in the packaging of the manufacturer in accordance with the rules operating on the mode of transport used.

### RESOURCES, LIFETIMES AND MANUFACTURER'S (SUPPLIER'S) WARRANTIES.

- 8.1 Average full service life of a bibtap: 30 years.
- 8.2 The manufacturer (supplier) guarantees the operability and compliance with the safety requirements of the product if the consumer complies with this technical passport HC-20302.
- 8.3 Warranty period: 36 months from the date of sale to the end user / from the date of commissioning of the object. The warranty covers all defects caused by the manufacturer.
- 8.4 When making claims about the quality of the goods, the buyer provides the following documents:
- 8.4.1 An application in any form, which indicates:
- a) Name of the organization or F. And. About. buyer, actual address, contact phone number,
- b) The name and address of the organization that carried out the installation of the product; c) a brief description of the malfunction of the product.
- 8.4.2 A document confirming the purchase of the product (cash/sales receipt, waybill, receipt, etc.).
- 8.4.3 Photos of the product confirming its malfunction, or the product itself.
- 8.4.4 Act of hydraulic testing of the system in which the product was mounted.
- 8.4.5 Completed warranty card.
- 8.5 The warranty does not cover defects arising from:
- 8.5.1 Violations of the passport regimes of storage, transportation, installation and operation of the product.
- 8.5.2 The presence of traces of extraneous interference in the design of the product.

| 8 | .5.3 | Effects of substances aggressive to the materials of the product |
|---|------|--|
| 8 | .5.4 | Effects on the product of excessive force.                       |
|   |      |  |

- 8.5.5 Impact on the product of fire, natural disasters and other force majeure circumstances.
- 8.6 The warranty also does not apply in cases where the manufacturer's markings are partially or completely changed erased, removed or illegibly visible.
- 8.7 In case of unreasonableness of the claim, the costs of diagnostics and examination of the product are paid by the buyer.
- 8.8 Manufacturer HOME CREATOR TECHNOLOGY CO., LTD reserves the right to make changes to the design of the product that do not affect the declared technical characteristics.
- 8.9 Claims for the quality of the goods can be made during the warranty period at the address of the manufacturer HOME CREATOR TECHNOLOGY CO., LTD.

### OCCUPATION OF ACCEPTANCE AND PACKAGING

- 9.1 Bibtap packedby the manufacturer.
- 9.2 Packaging ensures the safety of products subject to compliance with clause 7.
- 9.3 The materials and substances used for packaging are safe for people and the environment.
- 9.4 The bibtap is in the open position.
- 9.5 The batch of bibtap is recognized as suitable for operation and is accepted with 100% control at Pnp = 1.5\* Pv
